**ELECTRIC FLOOR WARMING**

## Pamper Yourself Everyday with the Comfort of Warm Floors

Tile, stone and hardwood are popular floor covering options for today's home renovations. Why not add a Tempzone™ electric floor warming system and transform these naturally cold surfaces into soothing, warm floors? Now, you can turn your kitchen into a cozy and inviting place for family and friends to gather. Or, transform your master bathroom into a spa-like retreat. Costing just pennies today to warm most average size master bathrooms, you'll appreciate the experience even more.

Tempzone™ installs easily under tile, stone and marble and can be directly imbedded into the thinset cement used to set your tile. This fiberglass mesh backed cable system measures less than 1/8" thick to fit discreetly beneath your floor covering and will not noticeably impact floor height. Tempzone™ also installs under both nailed and glued-down hardwood flooring.

Tempzone™ delivers 25% more heating capacity as compared to most competitive systems to provide faster floor warm-ups. With the 7-day programmable thermostat, you can manage your system to maximize energy efficiency for cost savings. Your WarmlyYours floor warming system will provide you with years of maintenance free, radiant warmth and is backed by our free lifetime technical assistance plan.

## Industry Leading Support & Services...from WarmlyYours

Add the even, room filling warmth of heated floors to your bathroom, kitchen, or sunroom. It's easy with a Tempzone™ system.

**24/7 Installation Support**—accessible 24/7, our knowledgeable phone support ensures a trouble-free installation.

**Lifetime Technical Assistance**—available for as long as you own your floor warming system.

**Free Design Service**—WarmlyYours designs a custom installation plan for your floor warming project.

**Same Day Shipping**—your order ships on the same business day it is received.

**10-Year No Nonsense™ Warranty**—the most comprehensive warranty in the industry covers not only the repair or replacement of the Tempzone™ warming roll, but ALSO any labor AND materials, in the event of a manufacturer's defect.
